

100-TON THREE-BAY OPEN HOPPER

HO SCALE

PROTO FASTFACTS™

In Service: 1960s-present

Developed by the N&W in the early 1960s, cars of this design were also constructed by the PRR, RDG, C&O, B&O and Frisco as well as by Bethlehem Steel and ACF for several other roads.

These cars were the unofficial standard coal hopper of the 60s, 70s and 80s and some are still in service in 2007.
