

GUESS WHO'S CELEBRATING 40 YEARS?

Exclusive Amtrak® 40th Anniversary **HO Model Trains**

In case you hadn't heard, Amtrak® hit the big 4-0 and is making it one to remember! For the first time ever, Amtrak is proud to be offering exclusive HO model trains in celebration of this milestone. We've teamed up with Walthers so you can join in the celebration by running your own Amtrak Exhibit Train or adding a Heritage scheme P42 to the point of one of your trains. Better yet, do both! Amtrak is happy to announce another first: Your favorite single-level cars in the current Phase IVb scheme. At long last, everything to model a present-day Eastern long distance train or Northeast Regional is being made available, and for the West Coast modelers that means Phase IVb Baggage cars can now accompany your consists. This limited run of models is only available through Amtrak. Pre-orders are now being taken online; expected delivery scheduled for late Fall 2011. For more information, head on over to www.amtrak40th.com or come see us aboard the Exhibit Train.

Now taking pre-orders, only at:
