Did You Know?

Lush green landscapes can really come to life with flowers.

Bright displays of flowers in gardens, window boxes and similar planters can be found in urban and suburban areas.

Fruit-bearing trees and others, as well as vines and shrubs also bloom with flowers, usually in the early part of the growing season. These can be modeled by lightly brushing the tips of branches with white glue and dusting a little fine flocking or turf over the tips. When you're done, just vacuum or brush away the excess.

Adding wildflowers to fields is just as easy; lightly brush the top of your grass surface with white glue and sprinkle on your favorite flower-colored ground foam. Some manufacturers also offer ready-to-use grass mats complete with various flowers.

WALTHERS®

Get To Work On Your Layout Reserve Your Maintenance-of-Way Cars Today!

Creating a realistic work-train consist is easier than ever before — thanks to MOW cars from Walthers

The rails were once ruled by heavyweights, but the emergence of lighter cars and the reduced number of passenger trains saw the end of their reign in the 1950s. Replaced, but not forgotten, many were rebuilt and reassigned to Maintenance-of-Way service. Seen at job sites throughout North America, people who worked on or near the rails lived, slept and ate in revived MOW cars well into the 1990s.

- **FACTORY-INSTALLED GRAB IRONS**
- **Perfect Additions to Work Train Consists**
- **Six Realistic MOW Schemes**
- **Detailed Interiors in Heavyweight Cars**
- **Proto MAX™ Metal Knuckle Couplers on All Cars and Crane**
- **Add Lighting to Heavyweight cars with Walthers Interior Lighting Kits #933-1087 (DC Version) or 933-1088 (DCC Version), Sold Separately**
