WELCOME

Get ready to celebrate railroading this month, with Founder's Day, National Train Day, the Golden Spike 144th Anniversary and plenty of exciting new products, news and great deals in the May issue of Walthers Flyer.

May 10th marks the start of Walthers 81st year in business, and to say thanks for helping us reach this milestone, check out special deals on brand new items in our Founder's Day Sale, starting on page 10.

Join in the fun on National Train Day May 11th. Events are scheduled across the country from Union Station in Los Angeles to 30th Street Station in Philadelphia. Walthers is a proud sponsor of National Train Day.

The Savings Express rolls in this month with terrific prices on select HO Scale All-Purpose Flatcars — but only while supplies last! See the current selection and complete details on page 23 in this issue.

Add a unique business to your N Scale railroad with the Railcar Restoration & Charter facility. A great showcase for all kinds of historic equipment on a modern layout, read more about the newest Cornerstone kit on page 5 now!

Get your yard work done faster this summer when you add the newest WalthersProto switchers to your roster! Check out the classic USRA 0-8-0s on page 15, and the latest run of F-M H10-44 diesels on page 4, all in this issue.

Find out more about these and other new models at walthers.com, by calling us at 1-800-487-2467, or visit your participating hobby shop to reserve any new product in this issue.

Happy Modeling!

Phil Walthers

ON THE COVER

The first rays of light are just visible in the east, but the work day never really stops on the railroads. Wisps of steam trail into the damp air, heavy with dew and the promise of another warm day to come. Bring the romance of railroading to life on your layout in minutes with great new models like the WalthersProto USRA 0-8-0s, listed on page 15.

Right Side of the Tracks

Cities and towns are usually divided into areas – downtown, residential, business. Sometimes these separations are dictated by natural elements such as rivers or ravines but often the division happens at the railroad tracks. Follow the main road through town past tall buildings and stores then cross the tracks and you'll find yourself in a quiet residential area.

Modeling this type of town is easy with the wide variety of Cornerstone structure kits available. Finish the scene with the latest WalthersProto™ 54' 23,000-Gallon Funnel-Flow Tank Cars shown on page 7 plus figures, vehicles and scenery found in this Flyer and at walthers.com.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items– those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

PROTO FASTFACTS™

After UP successfully equipped several GP9s with turbochargers, EMD was inspired to create the GP20 in 1959. Early in their careers, GP20s were typically assigned priority freights that demanded higher speeds. With the arrival of newer power, they were gradually bumped into secondary runs, and eventually spent their last years in local and yard service. Following their retirement, a few went to work for shortline operators.

Founder's Day Sale

Four simple words: "Improve Your Toy Railroad" headlined the self-published ad William Kearny Walthers placed in a miniature trains publication more than 80 years ago. Soon, Bill was sending out electrical supplies and helpful answers to model railroaders eager to expand their hobby. Quickly moving into signals, track and car kits, Walthers has grown to become your number one resource for model railroad product information.

Join in our Founder's Day celebration with discounts on a variety of brand new Walthers releases. Hurry! The celebration ends June 15, 2013.

MAKING RAILROAD HISTORY

WALTHERSPROTO™

USRA 0-8-0 SWITCHER

HO SCALE

Tsunami® Sound & DCC $399.98 | Standard DC $299.98
Coming Soon!

WALTHERSPROTO FASTFACTS™

In Service: 1918-1950s

Variants: Numerous changes to tenders and equipment after end of USRA control in 1920; copies built through early 1950s.

Primary Assignments: Yard switching and transfer service, also used as industrial switchers.

By 1917, larger and heavier freight cars had pushed most 0-6-0s to the limit. Railroads needed bigger, more powerful switchers, leading the United States Railroad Administration (USRA) to develop an all-new 0-8-0. Equal in power to many road freight locos from just a few years earlier, the USRA engines were well liked, 175 were completed before 1920, and 35 railroads would later copy the design.

- **Limited Edition - One Time Run of These Roadnumbers!**
- **Available with Tsunami Sound & DCC or Standard DC**
- **Loco & Tender Electrical Pickup**
- **Traction Tires**
- **Weighted for Maximum Tractive Effort**
- **Operating Cab Windows**
- **Meticulously Detailed Cab Interior**
- **Tender Coal Bunker Style Appropriate to Road**
- **Slow Speed Less Than 3 Scale MPH**
- **Proto MAX™ Metal Knuckle Couplers**

MAKING RAILROAD HISTORY
WALTHERS PROTO™

Trendsetters

As ridership declined, Santa Fe re-equipped the El Capitan with Budd Hi-Levels in 1956. The all-stainless steel cars offered more comfort for passengers and greater seating capacity for increased economy. Large windows provided great views for passengers on the upper level while the lower level was reserved for restrooms, baggage and air conditioning equipment.

The cars remained popular into the Amtrak era running on former ATSF routes. When Amtrak finally received funding for new cars, their Superliners were based on Santa Fe's hi-level design. Similar cars called California Cars and Surfliners are operated in conjunction with the California DOT (Caltrans).
