

Energy Center Keeps Byproducts Moving at Your Ethanol Plant

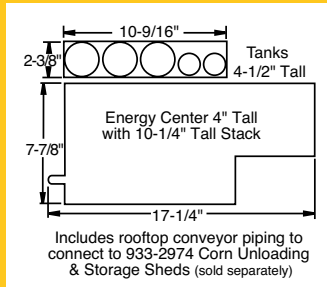

HO ENERGY CENTER

933-2978 \$89.98 February Delivery

- Building w/Outside Covered DDG Storage
- 5 Tanks, Outside Stack & DDG Conveyor Piping
- Ideal for Use with Other Industries Too

From field to fuel tank, ethanol provides plenty of traffic for prototype railroads. And with the new North American Ethanol series from Walthers, it's easy to add a typical plant to your contemporary HO layout. With seven new Cornerstone® structure kits (many adaptable to other modern industries), three all-new Gold Line™ freight cars, and specially decorated PROTO 2000® SW9/1200 diesels, you'll have everything you need to build and operate a complete facility. The first structure kits are now in

stock with more coming soon! Visit your participating dealer for complete details or to reserve future releases (one is shown below).
