

# HO Structure Kit **INDUSTRIAL TANKS** 933-3197

Thanks for purchasing this Cornerstone Series® Kit!  
Please read all instructions before starting. All parts are molded in styrene plastic, so use glues and paints which are compatible.

## **Before Assembly**

Check kit for proper number of parts. Cut and file flash from parts. Sand edges to ensure right angle joints with no gaps between parts.

## **Painting**

You can paint this kit with brush, spray can or airbrush. Paint after assembly is complete to help cover up any seams. Weathering is optional.
