56' Thrall All-Door Boxcar

Check walthers.com for current pricing.

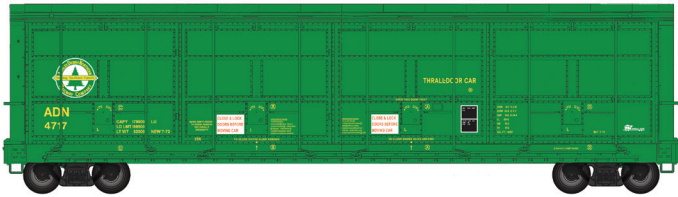

Introduced in the late 1960's specifically for the transportation of lumber and weather-sensitive building materials, the H0 Scale 56' Thrall All-Door Boxcar from Walther'sProto, brings a colorful and unique piece of rolling stock to your layout's lumber operations. The prototype design, first introduced in the late 1960's, featured large sliding side doors for easy loading and unloading access, with many remaining in service until the early 2000's.

- The Walther'sProto model features:
- Etched end platforms with cross-over irons
 - Finely detailed, separately applied ladders, latch bars, door handles and brake wheel
 - Factory installed grab irons
 - Ultra-smooth rolling metal axles and 33" wheelsets
 - Proto MAX™ metal knuckle couplers

Previous run model shown.

ALL NEW TOOLING!

General Electric ET44AC Evolution Series GEVO Locomotive

ESU® Sound DCC
Standard DC

Check walters.com for current pricing.

First introduced in 2012 to comply with strict EPA Tier 4 emissions standards, the ET44AC is the latest addition to General Electric's Evolution Series of locomotives. These 4,400 hp diesels have set a new standard for heavy hauling freight locomotives in North America. The WaltherMainline model captures all the main spotting features of the Tier 4, including its 16" longer length, larger radiators and modified exhaust and cooling systems. These locomotives have become the modern standard for freight haulage across North America, and various other countries the world over where heavy tonnage requires the 4,400 horsepower provided by these units.

- This latest run from WaltherMainline features:
- Limited run with an officially licensed America250™ unit
 - Available with ESU Sound for DCC and DC layouts featuring:
 - 4 function outputs with brightness control by CV
 - Fully DCC compatible
 - 14, 28, 128 speed steps
 - Dual mode DC and DCC
 - 4 air horns changeable by CVs
 - 2 bells changeable by CVs
 - Full 8-notch prime mover sounds
 - Compressor
 - Dynamic brake
 - Multiple realistic lighting effects
 - 21-pin DCC plug
 - Pre-installed 11mm x 15mm sugar cube speaker
 - Correct profile radiator grilles and roof-top walkway surface details

- 2- or 3-vent dynamic brake vent as appropriate
- Can easily handle 18" radius curves (22" or larger recommended)
- Six powered axles per unit
- LED Lighting includes:
 - Correct headlight position per prototype
 - Working front ditch lights
- Two truck styles to match prototypes:
 - Standard high adhesion
 - C4 A1A center idler axle
- Same powerful and ultrasmooth drive as WaltherProto' locos
- Fully assembled
- Add grab irons to your model with the GE ET44AC Tier 4 Diesel Detail Kit (910-262, sold separately)
- Prototypically accurate RP-25 metal wheels
- Proto MAX™ metal knuckle couplers
