## EMD GP9 Phase II Locomotive with Chopped Nose

**ESU® Sound & DCC  
Standard DC**

Check [walthers.com](http://walthers.com) for current pricing.

A must-have for modelers of the 1960s and later, this locomotive reflects a time when railroads upgraded and rebuilt older power as a cost-effective alternative to buying new. Many of these rebuild programs focused on the venerable EMD GP9, including units which were originally built between 1955 and 1957, referred to by railfans and modelers as Phase II. While these units retained their no-frills, utilitarian appearance, many were modified with chopped short hoods to improve forward visibility. Numerous examples remain in service today on shortlines, in industrial operations, and at museums. The WalthersMainline Phase II EMD GP9 with Chopped Nose is ideal for a wide range of assignments and features many realistic details, including:

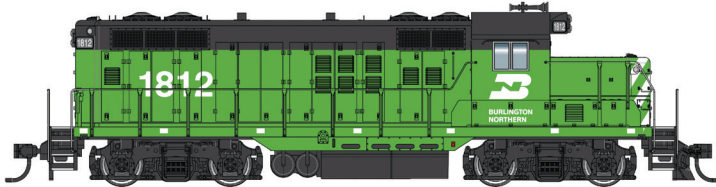

- Scale width hood with correct contours
- With or without dynamic brakes as appropriate
- See-through steps
- Correct RP-25 metal wheels
- Available with ESU Sound & DCC for DCC or DC layouts featuring:
  - 4 function outputs with brightness control by CV
  - Fully DCC compatible
  - 14, 28 or 128 speed steps
  - Dual mode DC and DCC
  - 4 Airhorns changeable by CVs
  - 2 bells changeable by CVs
  - Full 8-notch prime mover sounds
  - Compressor
  - Dynamic brake

- Same powerful drive as WalthersProto® locos featuring:
  - Five-pole skew-wound motor
  - 14 to 1 gear ratio
  - Helical-cut gears for quiet operation and easy multiple unit operation
  - All-wheel drive and electrical pickup
  - Machined brass flywheel
  - Heavy die-cast metal chassis
  - Constant and directional LED headlights
  - 21-pin DCC plug
  - Pre-installed 28mm speaker on standard DC and Sound & DCC versions
  - Molded drill starter points - add grab irons to your model easily with the GP9 Phase II Diesel Detail Kit ([910-258](#), sold separately)

Previous run model shown.

### 36' Wood Chip Hopper

Check [walters.com](http://walters.com) for current pricing.

Designed to haul lightweight but bulky wood chip loads from sawmills and other lumber-related industries to paper mills, the WaltherMainline H0 Scale 36' Wood Chip Hopper is based on prototypes used from the 1960s through the 1980s. These cars were converted from older two-bay hoppers with added upper body extensions. They're perfect for serving logging, paper, and related industries.

Each model comes fully assembled and equipped with:

- Correct 33" turned-metal wheelsets
- Separate factory-applied brakewheel
- Proto MAX™ metal knuckle couplers

Previous run model shown.

### Mobile Home 2-Pack Kit

933-4148

Measurements:

Pink Home: 6-15/16 x 2-15/16 x 1-5/8" 17.6 x 7.3 x 4.2cm

Mint Home: 6-1/2 x 1-8/16 x 2-13/16" 16.6 x 4.6 x 7.1cm

## Mobile Home 2-Pack

Check [walthers.com](http://walthers.com) for current pricing.

Introduced in the 1930s and widely adopted after World War II, mobile homes offered an affordable, practical housing solution during a time of rapid growth and relocation. As highways expanded and industries shifted, they became common in trailer parks, campgrounds, and rural areas, providing flexibility for workers and families alike. Once delivered, these homes were set in place and connected to utilities but could still be relocated as needs changed. The Walthers Cornerstone Mobile Home kit is a great addition to campground, roadside, or residential scenes, and pairs easily with other Cornerstone and SceneMaster™ accessories to create a realistic, lived-in setting.

Features include:

- Molded in light gray
- Two pack unique vintage mobile homes
- Highly detailed corrugated "aluminum" siding
- Individually molded windows and doors
- Includes clear sheet for windows and printed sheet for window treatments
- *Shown assembled, painted and weathered by modeler.*

### Self-Storage Facility Kit

933-4205

Measures: 8 x 4-15/16 x 1-7/16" 20.3 x 11.1 x 3.7cm

## Self-Storage Facility

Check [walthers.com](http://walthers.com) for current pricing.

As communities expanded in the late 20th century, so did the need for additional storage. Homeowners, renters, and small businesses turned to self-storage facilities as a convenient way to keep seasonal items, equipment, and household goods nearby but out of the way. Typically found in suburban and light commercial areas, these facilities feature rows of individual units with roll-up doors for easy access. Designed for efficiency and security, they allow customers to load and unload directly from their vehicles, making them a practical addition to modern layout scenes.

#### Features include:

- Molded in light gray
- Great for modern era layouts
- Multiple kits required for a full storage unit complex
- Individually molded doors, light fixtures, and gutters for ease of painting
- *Shown assembled, painted and weathered by modeler.*

## Satellite Dishes Kit

Check [walthers.com](http://walthers.com) for current pricing.

949-4209

With the widespread adoption of cable TV in the 1980s and 1990s, satellite dishes became a common sight on homes and businesses. SceneMaster Satellite Dishes capture this familiar detail for your H0 Scale layout, adding realism to both residential and commercial settings.

Features include:

- Molded in light grey
- Contains six 36" dishes and two 8' dishes
- 8' dishes include fine photo etched receiver struts for improved detail
- Can be used in 1980s to modern-era layout scenes
- *Shown assembled, painted and weathered by modeler.*
- Assembled models measure:
  - Large: 1-1/8 x 1-3/16" 2.8 x 3.1cm
  - Small: 13/32 x 1/2" 1 x 1.2cm
