**COVER STORY:** It's all about the cars; for many folks rolling stock is the reason they became model railroaders. Whether you're a collector or an operator or just like to see a train run, the cars you choose set your railroad apart. Do you prefer the modern era or something from the pages of history? Do passenger ops take priority or does freight rule the road? Or maybe you just like what you like because it's all so much fun. Walther's makes it possible to have the railroad of your dreams no matter what you choose. Flip through the pages of this rolling stock issue for more inspiration.

**THIS PAGE:** A unit train of Walther's Mainline® 25,000 Gallon Tank Cars makes an impressive sight as it snakes through the forested hills. "Rolling pipelines" such as this crisscross the nation every day, transporting fuel oil, crude oil, vegetable oil and more. These cars are a terrific example of what makes Walther's Mainline equipment such a good value. They ride smoothly on 100-ton trucks with correct 36" turned metal RP-25 wheelsets and stay coupled thanks to the Proto MAX™ metal knuckle couplers. With finely molded factory-installed railings, ladders, walkways, placards and stirrups as well as separately applied wire safety rails, a skid protected bottom outlet valve, steam inlet and outlet, brake equipment with cylinder and rods and much more, well, you begin to see just how much detail we've included on these models. They run reliably, look terrific and will provide hobby satisfaction for years at home or on a club layout.

## WALTHERSPROTO®

### STARS OF THE ROSTER

WalthersProto® freight and passenger cars are the HO Scale showpieces that take center stage on your layout. Every piece of WalthersProto rolling stock is born from hours of meticulous research and design. State-of-the-industry tooling captures the correct contours of each prototype and provides a solid base for the wealth of road- and era-specific details that set WalthersProto models apart. Precise paint schemes capture the colors and graphics of each roadname offered, from bold railroad heralds to tiny warning stencils.

But they're more than mere shelf queens. WalthersProto freight and passenger cars are built to perform with accurately scaled metal wheels, Proto MAX™ metal knuckle couplers and lighting effects on select cars. Available in a variety of freight, passenger, and specialized car subjects, each WalthersProto model is an accurate 1:87 replica of the real thing.

#### 920-14606 WalthersProto 85' Budd Great Dome Amtrak #10031

With windows on all sides of its upper level, 85' Great Dome Lounge cars gave passengers a panoramic view of some of the most picturesque scenery along the rails. Built by the Budd Co. in the 1950s for the Great Northern Railway, some of the cars later served on Amtrak. In the 2010s, one the cars that served on special "Fall Foliage" train routes received a commemorative paint scheme.

The new WalthersProto model accurately replicates this special livery along with three other Amtrak paint schemes.

### **Walther'sProto® H0 67' Trinity 6351 4-Bay Hopper**

**920-110300 to 920-110331 Series • IN STOCK • \$59.98 Each**

Nearly as long as a locomotive, the supersized 67' Trinity 6351 4-Bay Hopper always draws the attention of railfans and modelers alike. Introduced in the early 2000s, these eye-catching behemoths carry DDG, malt and other grain products across North America.

Ready for work on your modern era railroad, these H0 scale hoppers offer the same roadname-specific hatch and outlet options as the prototype. Each car bristles with separately applied parts like see-through etched-metal walkways and factory-installed grab irons.

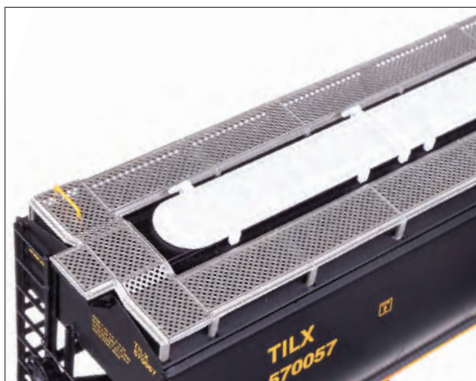

Metal wheels and Proto MAX™ couplers ensure years of trouble-free operation.

Put these cars to work on your railroad, today.

**Available roadnames:** Archer Daniels Midland, Archer Daniels Midland (Leaf Logo), Incobrasa (BRIX), Badger State Ethanol (BSEX), Chicago Freight Car Leasing Co. (CRDX), Midwest DDG (MWTX), Trinity Industries Leasing Co. (TILX, black), Trinity Industries Leasing Co. (TILX, Vera Sun)

See through metal roofwalks and end platforms with 2 styles of trough hatches as appropriate for each roadname.
